

Riding modes

The Bosch eBike system provides five different riding modes to choose from, offering the ideal support profile depending on the application and rider type.

Turbo	Direct, powerful support up to maximum cadence for sportive riding
Sport	Immediate, powerful support for athletic riding off-road and in city traffic
[With the Performance Line CX, the eMTB mode replaces the Sport mode.]	
eMTB	Progressive support for a natural riding sensation and optimal control on demanding terrain
Tour	Steady support for long tours
Eco	Effective support at maximum efficiency for maximum range
Off	No support, all on-board computer functions are available
